

Mathematics 1204: Winter Term 2012/13

Instructor: James Preen (email: james_preen@capebretonu.ca)

Office: A-129A (ground floor, A-wing, at the bottom of the ramp)

Office Hours: Tuesdays and Thursdays 1pm - 4pm or by appointment

Class meetings: Lectures: 4pm to 5.15pm Tuesdays and Thursdays in B201
Labs/Tests: 8.30am to 9.55am in B201 for tests and B184/B186 for labs

Textbook: "Elementary Linear Algebra" by W. Keith Nicholson (optional)

	Coursework	40%
Grading:	Mid-term test	20%
	Final exam	40%

There will be one mid-term test, held in place of a lab session sometime in February. The Final exam will be held during the regular examination period in April. Upon completion of each section of the course some sort of test or assignment will be given. All tests including the final examination will be "open-book" in that any material can be consulted during the test.

Lab sessions will be primarily devoted to aspects of the Maple software package used for matrix and vector manipulations. Topics considered in lab will ordinarily be tied to those discussed in class. Occasionally students will be required to complete a specific assignment in the lab itself.

Academic regulations concerning penalties for plagiarism and cheating will be rigidly enforced in this course. A supplemental exam for the course will not be made available.

The website for the course is

<http://faculty.capebretonu.ca/jpreen/1204/math1204.html>

Major Topics:

- Matrices and Systems of Linear Equations
- Determinants and Eigenvalues
- Solution of Systems and Recurrences
- Geometric Vectors
- Vector Spaces
